

IMessageHandler

```
classDiagram
    class IMessageHandler
    class System
    class Factory
    class HandleManager
    System --|> IMessageHandler
    Factory --|> System
    HandleManager --|> System
```

The diagram illustrates a class hierarchy. At the top is the 'IMessageHandler' interface. Below it is the 'System' class, which inherits from 'IMessageHandler' as indicated by a solid arrow pointing upwards. At the bottom are two classes, 'Factory' and 'HandleManager', both of which inherit from 'System', as shown by solid arrows pointing upwards from each to 'System'.

System

Factory

HandleManager
