

IMessageHandler

```
classDiagram
    class IMessageHandler
    class System
    class HandleManager
    System --|> IMessageHandler
    HandleManager --|> System
```

A UML class diagram illustrating inheritance. At the top is the 'IMessageHandler' interface. Below it is the 'System' class, which inherits from 'IMessageHandler' as indicated by a solid line with an open arrowhead pointing to 'IMessageHandler'. At the bottom is the 'HandleManager' class, which inherits from 'System' as indicated by a solid line with an open arrowhead pointing to 'System'.

System

HandleManager
